

HA Commissioned Training Program

Breast and Facial, Head & Neck Reconstruction

Venue: Underground Lecture Theatre 1, New Clinical Building, Queen Mary Hospital

Date: 20 -21 Feb 2014 (Thu- Fri)

Overseas Speaker: Prof Julian J. Pribaz, MD

Prof. Julian J. Pribaz, the Associate Chief of the Department of Plastic Surgery, Harvard Medical School, researched extensively in the area of Microvascular and Reconstructive surgery of the Head and Neck, Breast as well as Extremities Reconstruction.

Prof. Pribaz worked on tissue neovascularization and prefabrication and studied their clinical application in patients in whom conventional flaps were not available for reconstruction difficult defects especially in the head and neck region.

Julian J. Pribaz, MD

His group in the Brigham and Women's Hospital performed the nation's first full face transplant in 2011 and now total 5 facial transplantation were performed for patients with extensive facial deformities.

Prof. Pribaz also experienced in full spectrum of breast reconstructive surgery ranging from implant based reconstruction, autogenous pedicle flap to free flap breast reconstruction.

Program Rundown: Please refer to Appendix

Accreditation:

CME/CNE pending for approval

For registration:

Please complete the registration form and return it by:

E-mail to: Miss Shirley Chau, chausl@ha.org.hk OR;

Fax to: 24569009

Application deadline: 18 Feb 2014 (Tue)

20/2/2014 Face / H&N / AVM - HA Commissioned Training Program

Time	Topic	Speaker	Chairman
0900-0910	Introduction	HP Chung	
0910-0930	Principles of Prelamination and Prefabrication and its applications in complex facial and H&N reconstruction	Prof Pribaz	CM Ho & Eric Choi
0930-0950	Double free flap in H&N reconstruction	Tor Chiu	
0950-1010	Application of FMM and Submental flaps in facial and H&N reconstruction	Prof Pribaz	
1010-1040	Discussion		
1040-1055	Tea break		
1055-1115	Reconstruction of Maxillary Defects	Eric Choi	HP Chung & Tor Chiu
1115-1135	Periorbital Reconstruction	WY Cheung	
1135-1155	Skull Base Reconstruction	Jimmy Chan	
1155-1225	Hair-bearing flaps in Head and Neck Reconstruction	Prof Pribaz	
1225-1255	Discussion		
1255-1400	Lunch		
1400-1420	Interventional Radiologist's perspectives on the management of vascular malformations	WL Poon	WY Cheung & Jimmy Chan
1420-1440	Surgical management of vascular malformations in the H&N region	Prof Pribaz	
1440-1500	Discussion		
1500-1515	Tea break		
1515-1700	Case presentations (Panel : Prof Pribaz, CM Ho, WY Cheung, LK Lam)		
1800-1900	Open Lecture : Limitations of Current Approaches to Autologous Reconstruction of Complex Head and Neck Defects: Indications for Facial Transplantation	Prof Pribaz	

21/2/2014 Breast Reconstruction – HA Commissioned Training Program

Time	Topic	Speaker	Chairman
0900-0910	Introduction	Eric Choi	
0910-0940	Autogenous breast reconstruction -an overview	Prof Pribaz	LK Lam & SY Wong
0940-1000	Implant based breast reconstruction	CM Ho	
1000-1020	Nipple sparing mastectomy – Indications and Oncological safety	Miranda Chan	
1020-1040	Effects of radiotherapy on reconstructed breast	Henry Sze	
1040-1110	Discussion		
1110-1125	Tea break		
1125-1255	Case presentations (Panel : Prof Pribaz, CM Ho, Miranda Chan & Henry Sze)		
1255-1400	Lunch		
1400-1420	Secondary procedures in breast reconstruction to maximize aesthetics	Prof Pribaz	CM Ho & HP Chung
1420-1440	Fat Injection – Its applications and controversies on breast conservation and reconstruction	George Li	
1440-1500	Nipple areolar complex reconstruction	Josephine Mak	
1500-1530	Discussion		
1530-1545	Tea break		
1545-1605	Breast reconstruction with folded flaps	Prof Pribaz	George Li & Eric Choi
1605-1625	Salvage surgery for locally advanced breast cancer	LK Lam	
1625-1645	The pedicled TRAM flap and the abdominal wall – minimizing donor site morbidity	Prof Pribaz	
1645-1715	Discussion
